Experienced in maintaining customer relationships, coordinating executive and operational activities, organizing sales and CRM processes, documenting SOPs, tracking projects, and building connected business systems. Technical toolkit includes HubSpot, Airtable, Notion, ClickUp, Google Workspace, Google Sheets, Microsoft Excel, Slack, n8n, Make.com, Zapier, AI integrations, APIs, Git and Linux.

CORE COMPETENCIES

Revenue & Sales Operations | CRM Administration | Account Management | Customer Operations | Project Coordination | Executive & Administrative Support | Client Onboarding | Email & Calendar Coordination | Pipeline & Lead Management | SOP & Process Documentation | KPI Reporting & Dashboards | Data Cleaning & Validation | Workflow Automation | AI-Assisted Workflows

PROFESSIONAL EXPERIENCE

Sales Account Manager | A2Z COMMUNICATION

Aug 2022 - Dec 2025 | Ogbomosho North, Oyo State, Nigeria

- Managed customer accounts and maintained ongoing relationships to support satisfaction, retention and revenue-generating sales activity.
- Identified customer needs, recommended appropriate solutions, and supported opportunities from initial enquiry through purchase and follow-up.
- Maintained accurate customer and account information, coordinated follow-up activities, and handled multiple priorities across day-to-day sales operations.
- Resolved customer concerns and maintained clear, professional communication throughout the customer relationship.

Executive Secretary | Rehanot Steels Limited

Feb 2018 - Dec 2021 | Ikorodu, Lagos State, Nigeria

- Provided executive and administrative support to senior leadership, coordinating schedules, correspondence, meetings and day-to-day priorities.
- Organized documentation, records and operational information to support efficient follow-up and decision-making.
- Coordinated meetings, communications and action items while maintaining visibility into deadlines and outstanding tasks.
- Supported structured administrative workflows and communication between executives and internal or external stakeholders.

SELECTED QUANTIFIED PROJECT IMPACT

- Client Onboarding Automation System: designed an 18-step workflow supporting 5 service packages across 4 core systems, automating project creation, package-based tasks, workspace generation and notifications.
- AI Meeting Notes & CRM Sync: built a 14-step workflow extracting 7 structured AI insights and synchronizing meeting context across 4 business systems.
- GrowAgency CRM + AI Pipeline: built 2 connected n8n workflows with 5 qualification routes for lead intake, AI qualification, CRM creation, routing and follow-up.
- Business Operations & Client Delivery System: centralized 6 operational areas and documented 3 core SOPs for project kickoff, onboarding and delivery.
